

THREE PEAKS EGYPT CHALLENGE

GPS INFORMATION SHEET

This sheet should be used in conjunction with the official THREE PEAKS EGYPT CHALLENGE GPS track, trail guide and trail map. It will help you identify each of the 32 GPS waypoints, which are referenced only with a number elsewhere. You can download the official GPS track at the website www.threepeaksegypt.org and you will find further information about each of the 32 waypoints in the trail guide.

THREE PEAKS GPS

GPS waypoints have their own number – 1, 2,3 etc. They are usually made at key navigational points/ water sources on the trail.

Remember, GPS is not completely accurate. Interpret it safely on the trail and never rely on it solely for navigation.

Bedouin guides should be primarily responsible for navigation. Three Peaks Egypt Challenge bears no responsibility for any loss or injury sustained as a result of information in this guide.
